

Home modifications that restore the reliability, dependability and comfort of your home.

“My bathroom used to be unusable in my wheelchair. EB Homes enlarged the room and door, installed a shower seat, grab bars, added fold-away grab bars around an ADA toilet, and converted to a roll-under sink/vanity. Eric really listened to my requirements, with excellent, professional results. The room is now safe, comfortable and functional!”

Let us bring back the functionality & freedom of your home!

We build Ramps that bring safety to your home.

With a push of a button, your front or back door opens for you!

We listen and design solutions for your specific needs.

With over 18 years experience in the building industry, EB Homes has the knowledge, skill and training to tackle virtually any home construction or remodel project.

Since 2007, our primary focus is to bring in-home accessibility to those in need. Our ultimate goal is to allow seniors and the disabled to remain living comfortably in their homes for as long as possible through personalized home modifications.

"The ramp EB Homes put in is so far beyond our expectations, 100% perfect from start to finish! Each task Eric and his team did was completed with precision, care and on time!"
